CONFERENCE PRESENTATIONS

PRINCIPLES OF FORCE SCIENCE/ EMPHASIS ON BODY-WORN CAMERAS

Dr. Bill Lewinski
Force Science Institute

Dr. Lewinski is one of the world's leading behavioral scientists whose work has focused primarily on the intensive study of the human dynamics involved in high stress, life-threatening encounters. He has a Ph.D. in Police Psychology and is a professor emeritus of Law Enforcement at Minnesota State University, Mankato, where he taught for more than 28 years. In 2003 he was named Distinguished Professor of the Year for the College of Social and Behavioral Sciences. He is a professor of negotiations at the University of Padua in Italy. He is the founder and director the Force Science® Institute, Ltd. (FSI), which is a research, consulting and training organization focused primarily on human behavior in use-of-force situations.

The mission of FSI is to gather experts from a variety of academic and research disciplines from a wide range of educational institutions, including Minnesota State University, Mankato, the Mayo Clinic, UCLA, University of Calgary, Indiana University, and many universities in the United Kingdom, to assist in the study of officer and subject behavior, primarily in lethal force encounters. Force Science® publishes a popular, twice-monthly e-newsletter, Force Science® News, that presents research and commentary on force issues in law enforcement. FSN has an estimated total readership of approximately 200,000 readers with some editions reaching over three quarters of a million readers. The International Association of Chiefs of Police distributes select articles to top administrators worldwide.

Dr. Lewinski's research has looked at subject and officer movement in lethal force encounters, action/reaction parameters, perception and memory. His groundbreaking findings have been presented at peer-reviewed conferences in psychology, criminal justice and engineering. They have also been published in national law enforcement publications, websites, e-newsletters and have been discussed in peer-reviewed publications. Additionally, his work was highlighted on Daily Planet, a televised program on the Discovery Channel Canada, 48 Hours Investigates, and a BBC Panorama special program, When Cops Kill. Dr. Lewinski's studies involve technologically sophisticated investigations into the perceptual and psychological factors that impact an officer's perception, reaction and memory in lethal force encounters. One study involved a collaborative effort with the University of Calgary and police services in the United Kingdom to determine the relationship of focal vision to information processing judgment and accuracy of shot placement in lethal force encounters.

Dr. Lewinski is an extremely popular speaker and consultant who has presented to and worked with a diverse span of groups, ranging internationally from the British House of Commons and House of Lords to the London Metropolitan Police, New Scotland Yard, Police Service of Northern Ireland, Republic of Ireland Police, I.A.C.P., and domestically from the FBI and other major law enforcement organizations to local police departments. He has presented at more than 100 international, national and regional conferences and has conducted more than 150 training classes and seminars worldwide. His audiences have represented a vast array of professionals, including investigators, attorneys, administrators, internal affairs personnel, and civilian review groups.

VISUAL LABS

SMARTPHONE BODY CAMERAS

The Visual Labs "All-in-One" solution provides:

- a Body Camera
 - a Digital Camera
 - an Audio Recorder
 - a Personnel Locator, and
 - a Fully-Functioning Smartphone
- all in a **Single Device.**

A smartphone running the Visual Labs system.

Public Safety Solutions

Put Emergency Responders First

Data Priority Services offer you:

Consistent High Quality of Service

Despite growing mobile traffic, you'll have reliable access to mission-critical data in the U.S. Cellular® footprint, even during times of peak cellular data usage.

Priority Service for First Responders

When networks are crowded with other data, your 4G LTE™ data gets pushed to the front of the line. When you need it most, first responders can share the data they need to provide their best response.

Preemption Over Non-critical Data

During high-traffic public events or an emergency, lower priority data can be temporarily reallocated so your first response team stays connected.

Contact

your local U.S. Cellular® representative or call **1-866-616-5587** today.

Visit

uscellular.com/business/publicsafety for more information.

Things we want you to know: 4G LTE not available in all areas. See uscellular.com/4g for complete coverage details. LTE is a trademark of ETSI.

U.S. Cellular® is a proud sponsor of the Wisconsin Police Leadership Foundation Summer Training Conference.

2019 WPLF SUMMER TRAINING CONFERENCE

HOST CHIEF'S NIGHT

MONDAY, AUGUST 5TH
5:30PM - 8:30PM @

The Automobile Gallery

400 S. ADAMS ST. | GREEN BAY

ALL CONFERENCE ATTENDEES & REGISTERED EXHIBITORS WELCOMED!

All conference attendees and registered exhibitor booth personnel are welcomed to attend the *Host Chief's Night* event being held on Monday, August 5th at The Automobile Gallery (400 S. Adams St., Green Bay) from 5:30pm until 8:30pm.

Host Chief's Night provides a wonderful opportunity for exhibitors to network with attendees in a casual environment. Complimentary appetizers, soda and tap beer will be served (cash bar available). Also, multiple door prize drawings will be held during the event.

To be admitted into the *Host Chief's Night* event you **MUST** show your exhibitor name badge or a guest pass. Guest passes to attend the event may be purchased at the Conference Registration Booth. Since the event location is off-site, complimentary shuttle bus transportation will be provided. The shuttle bus pick-up/drop-off is located on N. Adams St. between the KI Center and the Hampton Inn. The first shuttle bus pick-up will start at approx. 5:15pm.

The Automobile Gallery occupies a building that was home to Denil Cadillac, a historic and prestigious Green Bay dealership between 1958 and 1997. William "Red" Lewis, a Green Bay native and innovative entrepreneur, was inspired to convert the building into a gallery for automobiles that integrated event and meeting spaces. With his vision in mind, Somerville Architects & Engineers of Green Bay breathed new life into the building, preserving the facade of the dealership while creating a graceful, contemporary gallery and event space.

To learn more about The Automobile Gallery visit: <https://theautomobilegallery.org>.

PARKLAND FL SHOOTING REVIEW & LESSONS LEARNED

*Col. (ret.) Jack Dale
Broward Co. Sheriff's Office (FL)*

On February 14th, 2018 a former student of the Marjory Stoneman Douglas High School in Parkland, Florida arrived on campus armed with a rifle. He proceeded to shoot and kill 17 students and school staff members while leaving another 17 wounded. This tragic event is the deadliest shooting at a high school in US history. In the aftermath of the incident, there has been a great deal of scrutiny concerning the response of first responders, 911 call routing, radio interoperability, school security, threat assessment, mental health services and active shooter policy and training. The event prompted state legislation providing for risk protection orders, enhanced school security and the purchase of rifles by those under the age of 21.

This presentation provided by Col. (ret.) Jack Dale of the Broward Co. Sheriff's Office (FL) will cover the history of the shooter, a chronology of the event, lessons learned and actions taken post-incident. Col. Dale began his law enforcement career in 1989 and served with the Fort Lauderdale Police Department and the Broward Sheriff's Office. He has experience in the areas of uniformed patrol, narcotics investigations, criminal investigations, SWAT, training and internal affairs. He holds a Bachelor's degree in Public Management and Masters degree in Leadership, and is a graduate of the FBI National Academy and FBI National Executive Institute.

As the commander with the Broward Sheriff's Office's Department of Investigations and the Department of Professional Standards during mass shootings at both the Fort Lauderdale International Airport and the Marjory Stoneman Douglas High School, he was charged with the post incident analysis and oversight of the team responsible for corrective action implementation.

SOCIAL MEDIA CRISIS COMMUNICATION PLANNING FOR LAW ENFORCEMENT

Hannah Stonehouse Hudson

Hannah Stonehouse Hudson is a public speaker, certified trainer, writer, widow, and outdoor enthusiast. Her in-depth knowledge of the viral nature of the internet comes from being thrust unwittingly into the social media spotlight when in the space of 4 months she had a photo go viral worldwide and she lost her husband to a tragic accident.

In 2015 Hannah's TEDx Talk on Empathy and the Power of Virtual Communities had one goal: to empower people to face their fears and live their life fully when their world blows up. Hannah now leads seminars on social media crisis communication, social media and grief, social media strategy, and how to move forward when tragedy strikes.

THE CITY OF WAUKESHA SLENDERMAN CASE REVIEW

Det./Lt. Gerald Habanek
Waukesha Police Dept. (WI)

Jerry has been with the Waukesha Police Department for 25 years. Currently, he is assigned to the Criminal Investigations Division as the Early Shift Commander. Previously, he supervised Sensitive Crimes, Computer Forensics and Internet Crimes Against Children. Jerry earned a Bachelor's Degree in Italian and in Behavioral Science and Law from the University of Wisconsin-Madison. He obtained a Master's Degree in Criminal Justice from the University of Wisconsin-Milwaukee. He holds Instructor certifications from the State of Wisconsin Bureau of Training and Standards related to Criminal Investigation and sits on the Criminal Investigation Advisory Board for the State of Wisconsin.

Det. Thomas Casey
Waukesha Police Dept. (WI)

Thomas Casey is a Detective with the Waukesha Police Department and has worked at there for over twenty years. The past 6.5 years he has been a Detective where he has investigated crimes ranging from financial crimes to homicides and he specializes in death investigations. He is the department trainer for death investigations. Tom holds a Bachelor's Degree in Criminal Justice from the University of Wisconsin-Milwaukee. He graduated Suma Cum Laude. He has attended the Saint Louis University School of Medicine - Medicolegal Death Investigator course and numerous other death investigating training classes. Tom was the first Detective on scene and assigned the lead investigator of the Slenderman case. He has worked this case from the day it occurred throughout the judicial process.

Det. Michelle Trussoni
Waukesha Police Dept. (WI)

Michelle has been with the Waukesha Police Department for 18 years. She is currently assigned to the Narcotics and Vice Unit, and was previously assigned to Waukesha North High School as an SRO for four years. Michelle was on duty the day the 12-year-old girls stabbed their classmate and interviewed one of the suspects, Anissa Weier.case. She has worked this case from the day it occurred throughout the judicial process.

**Breakfast is ONLY complimentary in the lobby of the hotel in which registered Conference Attendee or Exhibitor is lodging.

ecoATM® kiosks have provided a safe, secure, and innovative way for consumers to recycle over tens of millions used or broken mobile devices since 2009.

Learn more at: www.ecoatm.com/law-enforcement

LIVE VERIFICATION

A remote attendant verifies and approves every transaction through three high-res cameras in real time. The cameras also capture multiple images of the sellers which are included on the transaction report.

SCREENS PHONES FOR ACTIVE KILL SWITCH

Some manufacturers have introduced software to disable stolen phones. If the kiosk detects such a “kill switch,” it will reject the transaction unless the user is able to deactivate it.

CAPTURES SERIAL NUMBER & DEVICE PHOTOS

The ecoATM® kiosk electronically extracts the serial number (IMEI, MEID, etc.) for each phone if technically possible. Images of the device are included on the transaction report.

ID VALIDATOR

A valid government-issued ID is required for every transaction. Photos of the actual ID are captured and added to every transaction report.

NIST COMPLIANT BIOMETRIC DEVICE

A valid thumbprint is captured and included in the transaction report where required by law.

PARTICIPATE FOR YOUR CHANCE TO WIN A 50" LG LED SMART 4K ULTRA HD TV!

Watch TV or stream content from Netflix and Hulu with this LG 50-inch UHD smart TV.

The robust quad-core processor ensures a gorgeous 4K picture and reduces video noise, while webOS makes it easy to connect to online streaming platforms.

This LG 50-inch UHD smart TV is slim and features a barely there edge around the screen for maximum viewing area.

HOW TO PARTICIPATE

1. Collect a single representative signature from each company listed on the "Exhibitor Passport Program Sign-Off Form."
2. Drop off the completed Form at the WCPA's Booth #810.

IMPORTANT NOTE:

To be entered into this special drawing you **MUST** drop off your completed "Exhibitor Passport Program Sign-Off Form" at the WCPA's Booth #810 by **NO LATER THAN** 2:45pm on Tuesday, August 6th.

50" TV Winner Will Be Randomly Selected and Announced in the Exhibition Hall During Tuesday's Afternoon Break at 3pm.
Selected Winner Must Be Present to Claim Prize.

***The "Exhibitor Passport Program" was developed to encourage interaction between conference attendees and exhibitors. Therefore, representative signatures should be collected by conference attendees and NOT their significant others.*

LEGAL UPDATES

*Attorney Kyle Gulya
von Briesen & Roper, S.C.*

*WI Asst. Attorney General
Frank Sullivan
WI DOJ*

Kyle Gulya is a Shareholder in the Labor and Employment Law Section. Kyle advises both public and private sector employers with employment-and labor-related issues including regulatory compliance, antidiscrimination practices, contractual and workplace policy matters, and personnel management. He handles numerous aspects of labor-management relations from advising clients during union organizing campaigns to serving as chief negotiator during collective bargaining negotiations. He also advises clients regarding complex internal investigations and effectively resolving personnel disputes. Kyle frequently advises clients regarding employment agreements, independent contractor agreements, covenants not to compete, and confidentiality agreements. Kyle also assists clients with crisis communications and effectively handling crisis situations, and he regularly advises clients regarding Wisconsin's Public Records Law and Open Meetings Law.

Francis X. Sullivan is an assistant attorney general with the Wisconsin Department of Justice. Currently, he serves as counsel for the Division of Law Enforcement Services and Acting Director of the Bureau of Training & Standards.

A New Path AWAITS.

**APPLY
TODAY!**

Classes begin in
November

Marian University is launching a new 100% online **Master of Science in Professional Practice in Public Safety** program. This program is designed for individuals looking for advancement in organizations dealing with public safety.

- 100% online, 4-week classes
- Earn your degree in as few as 16 months
- Classes begin in November

ASSOCIATION PARTNERS

CRITICAL RESPONSE GROUP
We work today to save lives tomorrow.

To help enhance critical incident preparedness and management efforts of Wisconsin law enforcement agencies, the WCPA has partnered with *Critical Response Group* providers of Collaborative Response Graphics® (CRGs®). When an emergency occurs at a facility, hundreds of public safety professionals may respond, the majority of which will have little familiarity with the site. Almost two decades of After-Action Reports in the post-Columbine era point out that unfamiliarity with locations and an inability to communicate locations inhibited response times, closing on active assailants and evacuating casualties. CRGs® are designed to be simple maps - useable under stress - by anyone involved in an incident, from security personnel and facility administrators to dispatchers, responding officers and incident command, to communicate locations both outside and inside a facility!

To learn more about CRGs® please visit www.crgplans.com.

SITUATIONAL AWARENESS FOR DISPATCHERS: Dispatchers are under time pressure to question 911 callers to ascertain what is wrong, where they are, who they are and who is in danger in order to dispatch the right resources.

911eye live footage offers instant 'on scene eyes' to the dispatchers; providing immediate INSIGHT which helps them to assess the scenario and, with caller's location visible, to better select the appropriate RESPONSE to the incident - either as a 'real-time', immediate response or for a 'slow-time', non-emergency follow up - while at all times considering the SAFETY of responders and the public.

To learn more, please visit: <https://www.911eye.net>.

The *Police & Sheriffs Press, Inc. (PASPID)* provides secure Holoview® credentials for over 5,000 government agencies worldwide! *PASPID's* Holoview® card is one of the most secure ID card platforms in the world today because they feature numerous overt and covert embedded security features such as: embedded holograms, demetalized imaging, nano-text, black light core stock and multiple other security features which their cards highly resistant to counterfeiting.

To learn more about how *PASPID* can meet your agency's secure and other credentialing needs: please visit <https://pasp365.com>, email frank@pasp365.com or call 800-707-3080.

Since 2001, *Stanard & Associates (S&A)* and the WCPA have partnered to provide off-the-shelf exams to help Wisconsin law enforcement agencies improve their selection processes. Available exams include: National Police Officer Selection Test, National Dispatcher Selection Test, National Detective/Investigator Test and National First & Second Line Supervisor Tests (for promotional processes).

S&A also offers online employment application management services (<https://www.applytoserve.com>) as well as psychological evaluation services conducted by licensed police psychologists. To learn more about how *S&A* contact help you with your agency's testing needs, please email sales@stanard.com or call 800-367-6919.

2019 WPLF SUMMER TRAINING CONFERENCE

- RECOGNIZING THOSE WHO GO ABOVE & BEYOND TO SUPPORT US! -

ASSOCIATION PARTNERS

LexisNexis Police Reports is an eCommerce solution that helps law enforcement agencies address the challenges to cut cost, increase efficiency and improve service to citizens. In 2016, LexisNexis Police Reports, fulfilled over 1.5M insurance company crash report requests saving more than 5,000 agencies approximately 375,000 work hours.*

**Work hours based on a conservative estimate of one hour per report filed. Report times vary by type of report. Agencies using the solution, in general, advise the solution has saved them anywhere from 30 minutes to 3 hours per report.*

To learn how *LexisNexis Police Reports* can benefit your agency, please visit:

<https://policereports.lexisnexis.com> or call 678-807-0444.

ProTraining

MENTAL HEALTH AWARENESS

Created by *ProTraining*, Scenario Based Mental Health and De-escalation Training is a course designed to help officers with skills in the areas of expressed empathy, effective verbal and non-verbal communication, and de-escalation in order to improve the quality and safety of interactions with individuals who have, or may have, mental health issues. Using interactive scenarios and 'lived experiences', this course engages learners at critical decision points to demonstrate how responses and behaviors can defuse an interaction, improve a subject's cooperation and decrease the need for force.

Due to the value that this type of training provides law enforcement agencies with; the WCPA has entered into a partnership with *ProTraining* and encourages our Members to please visit www.wichiefs.protraining.com to watch a FREE ONLINE TRAINING DEMONSTRATION and consider selecting the "Train Your Staff" to sign up, purchase courses and experience their unique training.

Lexipol is America's leading provider of policy management resources for law enforcement organizations.

Lexipol provides comprehensive, continuously updated policies and related training for law enforcement agencies in Wisconsin. With more than 2,000 years of combined public safety experience, the staff at *LexiPol* creates policy solutions that help public safety leaders reduce risk and keep their personnel safe by improving policy access, understanding and compliance.

Lexipol's law enforcement policies, updates and training are delivered via an online platform and mobile app which provides personnel with: policies that provide consistent/clear direction, scenario-based training that helps for policies to be learned and applied, reports to enhance accountability/ compliance, access to policies and training anytime/anywhere and much more.

To learn more, please visit: <http://www.lexipol.com/law-enforcement>.

COLLABORATIVE RESPONSE GRAPHICS

WE WORK TODAY
TO SAVE LIVES TOMORROW

BORN FROM SPECIAL OPERATIONS

DEVELOPED BY THE U.S. SPECIAL OPERATIONS COMMUNITY OVERSEAS IN ORDER TO COORDINATE OPERATIONS IN UNFAMILIAR TERRAIN AND COMMUNICATE DURING HIGH STRESS MISSIONS ACROSS DISCIPLINES, SERVICES, AND NATIONALITIES.

VALIDATED AT THE HIGHEST LEVEL

USED DURING THE RAID ON OSAMA BIN LADEN TO ALLOW ALL MISSION PARTICIPANTS, FROM THE COMMANDER IN CHIEF IN DC TO THE SPECIAL OPERATOR IN PAKISTAN, TO COMMUNICATE FROM A COMMON OPERATIONAL PICTURE.

LESSONS RETURN HOME

THROUGH A UNIQUE RELATIONSHIP BETWEEN PUBLIC SAFETY EXPERTS AND SPECIAL OPERATIONS VETERANS, THE LESSONS LEARNED ABROAD HAVE TRANSITIONED HOME. FIRST RESPONDERS CAN NOW PLAN AND COMMUNICATE ON A COMMON GRAPHIC DURING A DOMESTIC CRISIS RESPONSE.

THE COLLABORATIVE RESPONSE GRAPHIC® (CRG®)

CRGs COMBINE A GRIDDED REFERENCE SYSTEM, HIGH RESOLUTION IMAGERY, FLOOR PLANS, AND CRITICAL FEATURES WITHIN A BUILDING TO CREATE A COMMUNICATION TOOL THAT IS USEABLE UNDER STRESS AND IS ACCESSIBLE TO FIRST RESPONDERS THROUGH ANY SMART DEVICE.

PROVIDING FULL OPERATIONAL VISIBILITY TO BOTH INCIDENT COMMAND AND FIRST RESPONDERS, THE GXP PUBLIC SAFETY SOLUTION BUNDLE FEATURING GXP OpsVIEW ENABLES MISSION COMMAND TO EFFECTIVELY COORDINATE AND DIRECT PERSONNEL IN REAL-TIME THROUGH AN EVENT OR CRISIS SITUATION.

COMBINING INNOVATIVE MOBILE APPLICATIONS WITH OUR CLOUD-BASED DISCOVERY, SHARING, INCIDENT MANAGEMENT, AND IMAGERY EXPLOITATION SOFTWARE, THIS SOLUTION BUNDLE ENABLES A COMMON OPERATING PICTURE FOR ALL FIRST RESPONDER PERSONNEL. COLLABORATIVE RESPONSE GRAPHICS (CRGs), OVERLAID ON TOP OF UP-TO-DATE SITE MAPS FEATURING CRITICAL MISSION INTELLIGENCE, ENSURE AN EXPEDITED AND EFFECTIVE TACTICAL RESPONSE TO THE THREAT AT HAND.

COLLABORATIVE RESPONSE GRAPHIC® (CRG®)

USE THE MACRO TO UNDERSTAND THE OUTER PERIMETER OF THE LOCATION.

- USE FOR PLANNING EVACUATION ROUTES AND ASSEMBLY AREAS.
- PLAN TRAFFIC CONTROL POINTS AND TRAFFIC MANAGEMENT.
- PLAN DESIGNATED AREAS FOR ARRIVING FAMILY MEMBERS AND MEDIA.
- EXPAND THE OPERATIONAL AREA IN EMERGENT CIRCUMSTANCES.
- IDENTIFY AND COMMUNICATE TRIAGE AREAS AND HELICOPTER LANDING ZONES.
- PLAN STAGING AREAS FOR CONTINGENCIES.

K-12 AND PRESCHOOL CRGs

FROM SMALL PRESCHOOLS TO LARGE HIGH SCHOOLS, CRGs ENSURE EDUCATORS COMMUNICATE WITH FIRST RESPONDERS FROM THE SAME COMMON GRAPHIC.

COLLEGE AND UNIVERSITY CRGs

CRGs FOR COLLEGES AND UNIVERSITIES ARE TAILORED FOR CAMPUS SECURITY TEAMS TO ENSURE ADMINISTRATORS, CAMPUS POLICE, AND ADJACENT FIRST RESPONDERS COMMUNICATE FROM A COMMON GRAPHIC DURING A CRISIS RESPONSE. WITH THE ADDITION OF A GXP OpsVIEW SUBSCRIPTION FROM BAE SYSTEMS, CAMPUS SECURITY CAN TRACK THEMSELVES, AND OTHER FIRST RESPONDERS, ON A CRG TO ENHANCE COMMAND AND CONTROL DURING AN EMERGENCY.

CONSULTING AND SUPPORT SERVICES

- CREATE CUSTOM TRAINING PROGRAMS RELATED TO WORKPLACE VIOLENCE, ACTIVE SHOOTER MITIGATION, EMERGENCY PREPAREDNESS, SAFETY, AND SECURITY.
- CONDUCT AN ANALYSIS OF A SCHOOL'S SECURITY PROCESSES, AND MAKE SPECIFIC RECOMMENDATIONS FOR IMPROVEMENT.
- PROVIDE SPECIFIC POLICY AND PLANNING RECOMMENDATIONS.
- TRAINING RANGING FROM TABLE-TOP EXERCISES FOR SCHOOLS TO FULL-SCALE EXERCISES FOR A MULTI-AGENCY RESPONSE.

USE THE MICRO TO UNDERSTAND THE INTERNAL DETAILS OF YOUR BUILDING.

- COMMUNICATE TO FIRST RESPONDERS WHERE YOU ARE AS WELL AS THE CURRENT LOCATION OF THE INCIDENT.
- VIEW HIGH RESOLUTION IMAGERY AND FLOORPLANS FROM DIRECTLY OVERHEAD.
- USE THE OVERLAID ALPHANUMERIC GRID TO RAPIDLY COMMUNICATE POSITIONS WITHIN THE BUILDING.
- ALLOWS THOSE WITH NO PREVIOUS KNOWLEDGE OF THE FACILITY TO QUICKLY UNDERSTAND THE LAYOUT.
- DIRECT ASSETS WHEN THE SITUATION DICTATES A CHANGE IN THE PLAN.
- FIND THE BEST EVACUATION ROUTE IN AN EMERGENCY.

ONLINE INTERACTIVE MENTAL HEALTH & DE-ESCALATION TRAINING

CONFIDENCE, EFFICIENCY, SKILL & COMPASSION

This eLearning course is designed to improve the quality of interactions between police officers and those who have, or may have, mental health concerns.

TOP REASONS TO TRAIN POLICE

- Decrease use of force and minimize liability
- Increase confidence in police
- Police officers are the first line responders to mental illness

Use training as a stand-alone program, as pre-CIT training, during CIT to train on skills, or as a yearly refresher to keep skills up to date.

| UNITS | PRICE |
|--------|-----------------------|
| 1-25 | \$50 _{/user} |
| 26-50 | \$45 _{/user} |
| 51-100 | \$40 _{/user} |
| 101+ | \$30 _{/user} |

THE SCIENCE BEHIND THE TRAINING

Training stems from a program developed at the University of Alberta with a local police organization to advance the mental health training of police officers. This program proved to be overwhelmingly successful, showing statistically significant improvements in police behavior.

41% decrease

In use of physical force in all police calls.

26% decrease

In use of weapon force in all police calls.

23% increase

In self-reported officer confidence when dealing with mental health calls after training.

41% increase

In officer Mental Health Awareness shown through an increase in number of mental health calls.

19% increase

In efficiency shown through a decrease in time needed to find solutions to mental health calls.

10% increase

In officer De-escalation, Verbal Communication, and Empathy skills before and after training.

Purchase training now

THANK YOU, WISCONSIN CHIEFS!

For Protecting Motorists and Highways

The Coalition Against Bigger Trucks appreciates your continued opposition to bigger trucks. Polls show most Americans oppose longer and heavier trucks, too - but a handful of powerful companies are pushing for them on capitol hill again this year.

CABT
Coalition Against Bigger Trucks

Thank you, Wisconsin Chiefs of Police Association, for saying NO to bigger, more dangerous and more damaging trucks on our highways.

**ITS HEART BEATS
STRONGER THAN EVER.
SO WILL YOURS.**

THE ALL-NEW MILWAUKEE-EIGHT™ 114 ENGINE

THE MOST POWERFUL AND COOLEST-RUNNING ENGINE IN HARLEY-DAVIDSON'S HISTORY

Harley-Davidson has spent more than 100 years in lockstep with law enforcement by providing the strongest, most thoroughly equipped riding machines specifically designed for the toughest job in the world.

Visit [H-D.COM/POLICE](https://www.harley-davidson.com/police) to learn more.
