NTN - Senior Field Consultant – Retired Chief

National Testing Network (NTN) is a well-established public safety testing company offering recruitment, entry level exam administration, background investigation services and custom promotional exams. NTN is revolutionizing the public safety testing process using innovative technology, focused recruitment efforts, a continuous testing model and network of background investigators, creating a "one-stop" resource for departments looking to enhance their recruitment, selection and investigation processes. Consistently, NTN clients report increased applicant diversity, qualified applicants, reduced testing costs and overall program satisfaction.

NTN is currently seeking near retired or retired Chiefs or Assistant Chiefs of Police for the role of Senior Field Consultant to partner with NTN in expanding our services in the State of Wisconsin. To learn more about our company, please visit www.nationaltestingnetwork.com / www.ergometrics.org

Position Description

Job Title: **Senior Field Consultant**
Division: Client / Professional Services
Effective Date: Starting date flexible
Travel: Minimal within the state
Pay: Combination of project base / commissions for entry and promotional testing / Investigations
Classification: Part time - Independent Contractor with flexibility
Location: Wisconsin

General Functions

The Senior Field Consultant (SFC) is a public safety Subject Matter Expert (SME) responsible for working directly with public safety departments, representing National Testing Network's continuous entry-level recruitment and screening program, background investigation division, and custom promotional exam development through our professional services division. The SFC will work with the National Testing Network corporate teams (Senior Staff, Sales, Client Services and Operations) to grow and support NTN in the region. This will include lead generation, conference participation, best practices sharing, consultative approaches within industry and background investigator coordination. The SFC is expected to be highly experienced, knowledgeable and excited about hiring and promoting within the public safety field with the newest recruitment and testing models available locally and nationally. The SFC should be well networked within his or her community and have the ability to open new doors through professional and personal relationships along with servicing our existing agencies in the state for additional services. Having successfully held the position of Chief of Police is required.
